

講義科目 : 英会話	単位数 : 2
担当 : マイルズ オブライエン	学習形態 : 選択科目

講義の内容・方法および到達目標

The course aims to provide students with practice in everyday English for various situations so as to enable them to develop the English they know already into a more useful tool for different situations. The first semester will deal with the English needed for travel abroad as a tourist or for study, and also for explaining about Japan to foreign visitors. The second semester covers everyday life in an English-speaking country. A textbook will not be used. Instead, online material (usable with PC, tablet, or smartphone), including listening, will be the basic material used in both semesters. There may be some minor changes in content or order of presentation of topics, depending on circumstances.

授業計画

第1回 Orientation, computer system	第16回 Introductions. Wh- Q&A.
